UNITED STATES GOVERNMENT

Memorandum

TO : Director of Training   DATE: 10 October 1961

THRU : Chief, Intelligence School

FROM : Specialist in Programmed Instruction

SUBJECT: Weekly Activities Report No. 36
4 - 10 October 1961

I PROGRAMMING COURSE

When ▮▮▮▮▮▮▮▮ was here last, he recommended that   25X1A9a
it would be better to teach students to judge apparent age,
rather than true age. This means having one or more ex-
perts judge the apparent age of the persons whose photo-
graphs are to be used in the description-of-persons program.
OTR experts are so busy that it seems the best plan to get
the needed judgements from experts at the CIC School at
Fort Holabird.

II DIGITAL COMPUTERS AND AUTOMATED INSTRUCTION

On 10 October ▮▮▮▮▮▮▮▮ attended the first of a three-   25X1A9a
day "Conference on Application of Digital Computers to Auto-
mated Instruction." Co-sponsored by the Office of Naval
Research and the System Development Corporation, it is being
held Tuesday, Wednesday, and Thursday at the Department of
Interior Auditorium, C Street, between 18th and 19th, N.W.
The three topics upon which attention will center are: (1)
"Experimental Research in Automated Instruction," (2)"Appli-
cation of Computer Techniques to Automated Instruction," and
(3) "The Outlook for Applying Digital Computers to Auto-
mated Instruction."
